- Git
- Postgresql
- Python
- Backend Developer
- FastApi
- Redis
- Basics of C++
- Django and Django rest framework
- HTML5
- CSS
- API Development
- Bootstrap 5.3
- Docker
- Basics of Linux

BIO

I am Ali Jafari, a passionate backend developer with expertise in Django and FastAPI. Over the past three years, I have dedicated myself to professional programming, honing my skills in building robust and scalable applications. My experience includes working extensively with PostgreSQL and Redis databases, ensuring efficient data management and performance optimization. I hold a background in Technical and Vocational Computer Studies, which has provided me with a solid foundation in computer science principles and practical problem-solving abilities.
